

We guarantee you will be happy with your smile before your braces come off. However, you may find that your teeth need a little fine-tuning down the road due to post-treatment shifting usually seen with forgetfulness from wearing retainers. Hey, we're all human :)

With our "Guarantee My Smile" program you'll never have to worry about the expense of braces again! If your teeth ever shift or you just become unhappy with your smile for any reason, we will put standard braces back on at only the cost of supplies. You'll just have to pay a monthly adjustment fee until you're once again satisfied with your smile . . . no contract! We often can be finished in as little as 3 months for any fine tuning necessary. Accommodations can be made if you'd like a more esthetic option such as ceramic, Iconix, or Invisalign.
