

We **guarantee** you will be happy with your smile before your braces come off however, you may find that your teeth need a little fine-tuning down the road. This can be due to post-treatment shifting and is usually seen with forgetfulness from wearing retainers. Hey, we're all human. 😊

With our "**Guarantee My Smile**" program, you'll **never** have to worry about the expense of braces again! If your **teeth** ever shift or you become unhappy with your smile for any **reason**, we will put standard braces back on for only the cost of supplies.

You'll just pay a **monthly adjustment fee** until you're (once again) satisfied with your smile...no contract! This treatment is considered, "Fine Tuning," and patients who have **participated** in this program, often are finished in as little as 3 months.

Accommodations can be made if you'd like a more esthetic option such as LightForce or Iconix brackets, or Invisalign.
